Southeastern Guide Dogs

Southeastern Guide Dogs is pleased to send you this picture of your sponsored puppy taken when the puppy was six weeks old. The puppy is sitting in a working guide dog harness dreaming of the day when the harness will fit perfectly.

When the puppy returns to Southeastern's kennels from the puppy raiser home you will receive a picture of the grown up puppy in the harness.

Whether the puppy becomes a guide dog, which is our main mission, or is in our Gifted Canines® program, you may be assured that your contribution will forever change the life of an individual.

Your sponsorship has provided for the puppy's needs up until the time it begins formal training.

Thank you again for supporting Southeastern Guide Dogs
